What are you doing to entice people back after EASTER???

Someone said that the Rotary club spends fully 1/3rd of their time to motivate their members back for upcoming meetings!

Some pastors are beginning a highly encouraging series for the people who only come on Easter.

## Pastor of the Week

### Pastor Alan & Beth Scott

have been at Trinity church for 15 years since 1995. Pastor Scott had a unanimous review with his church board. They love Alan dearly, and he is working carefully and patiently through some re-focus issues at the Trinity church. We thank God for them and that he has given us the privilege of having them on the Colorado team. The church was a great group of people to preach to on Sunday. I like one idea that they are using. It is a cross in the sanctuary where people come forward and place their concerns and needs in an envelope that has printed on the front of it, "MY IMPOSSIBILITIES" They place their prayer request on their and nail it to the cross. It has been a wonderful thing for his people to write down their burdens and place them in an envelope and nail them to the cross!

Lift up Pastor Scot & Beth in your prayers as God lays them in your hearts...

Someone decided to ask people how they would describe Easter if they could not use words, but only punctuation marks.

Imagine if on Easter Sunday, like the comic strip, everyone had a cloud over their heads and in the cloud was a punctuation mark indicating what their specific view of the meaning and impact of Easter has on their lives.

For some it would be a comma, little more than a pause in their schedule. Nothing really special, lets pause to get on with the rest of life. [click to read more](#)
