Pastor of the Week

QUICK LINKS

Pastor Gene Grate - Colorado Springs First

It was a delight to celebrate with Pastor Gene and his people on Sunday... Pastor Gene was presenting to his congregation his sabbatical in the fall. He has a very well laid out sabbatical of going to to visit the sites of Luther's reformation in Germany and also retracing the steps of Wesley in London. Then he plans to do church growth research at the PLNU library for the remainder of his sabbatical. Much of this is possible due to the Lilly Grant for pastors sabbaticals. It is a special privilege for a Nazarene pastor to be the recipient of this grant... to take a bible reference; "many have called but few are chosen..." Pastor Gene is very privileged to have received this grant and we celebrate with him in this marvelous achievement.

C. Spgs First has recently made some excellent program changes. They have gone to double services with a classic service first and then a contemporary service as the 2nd service. Both services are done with excellence and are attracting new visitors. We celebrate with Pastor Gene on this as well.

Perhaps you've heard me talk about creating many opportunities of side door entrance or evangelism. I believe they should be both onsite and off site, affinity groups and outreach possibilities.

This is an excellent illustration of creating multiple entry points for on site ministry into the church.
